# Pickup Using Barcode
Driver Pickup P&P

OneRail

It is necessary for delivery drivers to scan the arrival code from the OneRail Mobile app that appears upon arrival before loading package(s) for delivery.
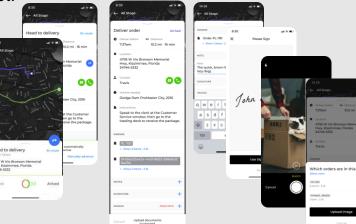

Using Barcode for Pickup

1. Sign in to the OneRail Driver App.
2. Accept delivery by selecting the order.
3. Select **Start** to begin.
4. Head to pickup.
5. Select **Arrived** at pickup.
   - Barcode will prompt.
6. Scan the Barcode at the kiosk.
   - A store team member may assist with location of pulled product.
7. Load product.

8. Select **Start** to continue to delivery drop-off.
9. Select **Arrived.**
10. Complete Proof of Delivery (Photos, Signature, Notes) as needed.
11. Complete delivery and select **Success**.
